

STRAIT-FLEX®

mud-pro™

the fastest, cleanest compound applicator

Your customers want to save time and money. Mud-Pro™ does both.

- Saves time. No clean-up. Just fold legs; drop into 6" of water.
- Five-gallon capacity means less down-time. Mounts to any five-gallon bucket.
- Stainless steel construction for long-life.
- Mix and store compound in same bucket. Compound stays wet.
- For inside, outside, and bull nose cornerbeads and all tapes. (Inside and Bull-Nose corner kits sold separately)
- Pair up Mud-Pro with Strait-Flex Big Stick Composite, PUR-Laminated Bead. Guaranteed not to edge crack.

Selling Mud-Pro is easy because there is nothing like it, and our display (see next page) proves that to your customer. Get our display kit and sell more!

For questions or to order, call toll-free 1-888-747-0220.

With Mud-Pro, compound flows smoothly and adheres evenly to the bead.

STRAIT-FLEX®

mud-pro™

STORES EASILY

Mud-pro packs up quickly. Just fold legs, drop into 6 in. water, and put lid on top.

NO CLEAN UP

guaranteed to sell when you use our display

Complete kit includes four (4) Mud-Pro units for stock and one (1) unit for display or demo.

- Pre-assembled.
- Sells for you – customers instantly see its benefits.
- Attracts traffic with its new technology.
- Sturdy; lasts virtually forever.
- Minimal floor or counter space required.

Seeing is believing. Let your customers see Mud-Pro, the fastest, cleanest compound applicator, and it will sell itself - guaranteed! Order right away, by calling toll-free 1-888-747-0220.

Keeps the work at railing height

Strait-Flex *NEW Sky-Bucket* keeps Mud-Pro buckets or other five-gallon buckets at railing height and secures to aerial platforms. Our *Sky-Cradle* keeps cornerbead and acoustical ceiling main-tees organized and ready-to-go, leaving the platform safely unobstructed.
