Brakes**

## Designed and built for the job site

Strait-Flex International introduces **Radial-Roller<sup>1</sup>** and **Radial-Roller<sup>2</sup>** designed for moving material for painters, drywall contractors, tile setters, and moving companies. It's tough enough to move heavy five-gallon buckets and other construction material easily through the job site.

For questions or to order, call toll-free 1-888-747-0220.

- Wheel design ensures maximum stability when moving construction materials.
- Radial-Roller<sup>1</sup> handles loads up to 500 lbs. Radial-Roller<sup>2</sup> handles 1000 lbs!
- Push or pull cart with a broom handle or extension pole (not included).
- Easy maneuvering.
- Relieve in deck fits standard five gallon buckets.
- Deck won't rust, dent, or chip.
- Rubber tires.
- Two-position handle eases load over floor transitions and extension cords.
- Locking casters prevent movement.
