

STRAIT-FLEX[®]

New Concept Drywall Products

Tile-Tape

DESCRIPTION (Waterproof)	Patented PVC tight fibered cotton composite corner tape that is 2" wide, .013" thick and comes in 100' rolls. Strait-Flex Tile Tape produces straight, strong and waterproof inside and outside corners. Watertight seams and corners-Apply over fiber cement board or green board in wet areas (tubs, showers, tile countertops, tub decks).
ADVANTAGES	<ul style="list-style-type: none"> • Waterproof corners from common grout cracks. • Straightens small framing irregularities. • Spans over large voids. • Will not cut or snag with notched trowel when applying tile setting compound. • Inside and outside 90 ° corners, and intricate off angles. • Inside 90 ° corners where a large fill or straightening is required, or where strength and speed of finish are required. • Rustproof. • No. Cracks. No Callbacks.
WARRANTY	Strait-Flex products are backed by a lifetime warranty. When applied to a sound structure, built on a permanent foundation using recommended application techniques, we warrant that these products will not edge-crack for the lifetime of the structure. Contact Strait-Flex International Inc for complete details.
DIRECTIONS	<ul style="list-style-type: none"> • Cut Strait-Flex to desired length. Adjust to desired angle. • Apply using a liberal coat of all-purpose compound with joint knife. Use tile setting compounds in wet areas. • Press Strait-Flex into wet compound. Adjust if necessary to create straight line and wipe down with joint knife. Immediately apply light skim coat and let dry. • Apply final coat, let dry and sand.
STORAGE	Store in dry place protected from moisture.
